## Urban Autumn Atmosphere

Autumn elegance, it's something to look forward to every season. The extra layers of clothing and the attention to detailing, being it a little sprinkle of glitter, a feminine print, or an eye-catching accessory. We love to care for every single piece in our wonderful collection and to pass on to you a feeling of adding that little extra to your look, when putting on your turban or head wrap.

The autumn season always seem to arrive overnight and the idea of summer and something ending can be quite overwhelming. But when you put on that comfy winter coat and wrap yourself in everything soft, sophisticated, and warm, the beauty of the transition wows us with its golden colours, candle lights, and open fireplaces.

It's the atmosphere of autumn, right, it's just special and wonderful and one we love to submerge ourselves into.

But let's, while we're getting ready for colder weather and long, dark evenings, add a bit of glitter, sparkle and light colours to it all, just because we can and because we love that too.

Welcome to the House of Christine autumn/winter '24 edit.

We hope it will inspire you to try on new favourites, add glitter to your Mondays and to find a look that suits you and embrace everything you are right now, on this beautiful autumn day.

# Bamboo Collection

CHRISTINE HEADWEAR

The bamboo-viscose products from Christine Headwear are made in the unique and functional Caretech® Bamboo quality.

Bamboo-viscose fabric has many fantastic features and the soft and comfortable quality is actually used to form the largest part of the Christine Headwear product range.

The Caretech® Bamboo is supremely soft, silky and luxurious to the touch.

It is breathable and thermo-regulating so you remain comfortable and dry during both summer and winter temperatures. The fabric is more moisture absorbent than cotton and quickly removes the moisture from the skin and releases it.

Further, the special Caretech® Bamboo products are extremely gentle to wear and highly suitable to use against sensitive skin.

# Underwear Collection

## CHRISTINE HEADWEAR

The Christine underwear top is a unique and comfortable underwear piece developed with both intelligent features and materials.

Comfort in clothing, underwear in particular, is often dictated by your body temperature. It can, however, be difficult to maintain a balance at 37.5-degrees when our body goes through changes, either due to surgery, treatment for critical illnesses or when suffering from alopecia.

It can be hard to control the hot and cold flushes that makes us so uncomfortable, but this top will help you! The 37.5® Technology used in the fabric material helps control your core temperature, regulates it and will keep you in the optimal 37.5-degree comfort zone at all times.

For further comfort and convenience, we've constructed the top so you can get dressed without having to pull it over your head, which can be difficult when having gone through a breast or under arm surgery. The neck line is beautifully placed and has an elegant and feminine silky satin trim.

A truly comfortable and practical top made particularly for your wellbeing.

# Soft Lift Hat

CHRISTINE HEADWEAR

The Soft Lift Hat from Christine Headwear is a revolutionary design protected headwear piece, which will provide the perfect fit and lift under your wigs and headwear.

A small hat that will make a big difference to the look and feel of your head coverings, as it gently lifts and adds a fine, natural volume to the back of the head.

The soft, breathable and light 37.5® fabric material will ensure you stay comfortable as it helps the covered area maintain an optimal 37.5-degree temperature - regardless of how you choose to cover it.

To make this clever little lift, a light mesh pad has been inserted under a soft top layer. This will add a beautiful rounded shape to the back of your head whilst leaving you comfortable, feeling nothing but carefully and gently protected.

The results are nothing but fantastic and you'll find your headwear and wigs will get a brand new, fine and elegant look to it.

## 37.5® TECHNOLOGY

Comfort in clothing is dictated by our temperature and the humidity next to our skin, known as our microclimate. When our microclimate balances at 37.5% relative humidity and our core temperature balances at 37.5 degrees, we are in the optimal comfort zone.

37.5® Technology headwear and clothing helps control the core temperature by accelerating the movement of moisture vapour before it can turn to liquid sweat.

If we get warm and damp, the 37.5® products will dry faster – up to 5 times faster than a similar product without 37.5® Technology. And, when moisture is removed from our headwear and clothing, we stay warmer when it's cold and cooler when it's warm.

The active particles used in 37.5® are derived from natural sources such as coconut shells and volcanic minerals. A combination of these special sources and the product features makes this a rather unique and intelligent headwear and clothing line.

Find further information about product care and safety on our website.

## CARETECH® SUPIMA COTTON

The Christine Headwear bamboo and Supima fabrics are all labeled with a Caretech® tag.

Caretech® is your assurance that the headwear made from these specific fabrics are not only CE and Standard 100 by Oeko-Tex certified, but also developed and produced especially for the Christine Headwear collections. Caretech® because we believe in providing a high quality, exclusive and conscious headwear collection, for the beautiful you.

We recommend handwashing your new headwear and laying it flat to dry. Do not tumble dry.
